OVERLOOKING THE VINEYARDS THAT STRIPE THE HILLS OF FRANCE'S CHAMPAGNE REGION, THE NEWLY-RENOVATED **ROYAL CHAMPAGNE HOTEL & SPA** COMBINES AN OUTSTANDING SPA EXPERIENCE WITH TREATMENTS BY BIOLOGIQUE RECHERCHE AND KOS PARIS, WITH WORLD-CLASS CHAMPAGNE TASTINGS AND MICHELIN-STAR FOOD.

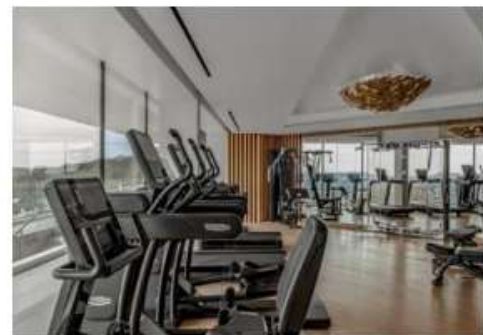

**A**cknowledging that it is located amidst some of the world's finest vineyards, including those of Dom Pérignon and Taittinger, the hotel is the ideal spot to unwind with indulgent spa treatments. In addition to that, the people can enjoy Champagne tastings at the two restaurants of the structure: Le Bellevue and Le Royal. Set beneath a thousand crystal pendants that reflect the sun's rays, Le Bellevue takes its cues from the terroir of Champagne. Chef Jean-Denis Rieubland sources his produce and meat from locals and friends in the region, resulting in an ever-changing menu full of rich stories and intense flavors. While Le Royal with its sophisticated and contemporary interiors, offers the dishes on custom Maison Fragile china, designed for the resort by Nicolas Ouchénir.

The world-class destination hotel comprises nine treatment rooms; state-of-the-art fitness facilities; a wood-lined yoga studio; eucalyptus-infused sauna; manicure and pedicure stations and a mosaic-tiled Hammam. In partnership with acclaimed French brand Biologique Recherche, the spa and wellness centre are inspired by the original purpose of this former Post House built on the orders of the Empress Josephine – to communicate, to link and to connect. Inspiration also draws from the region's most famous

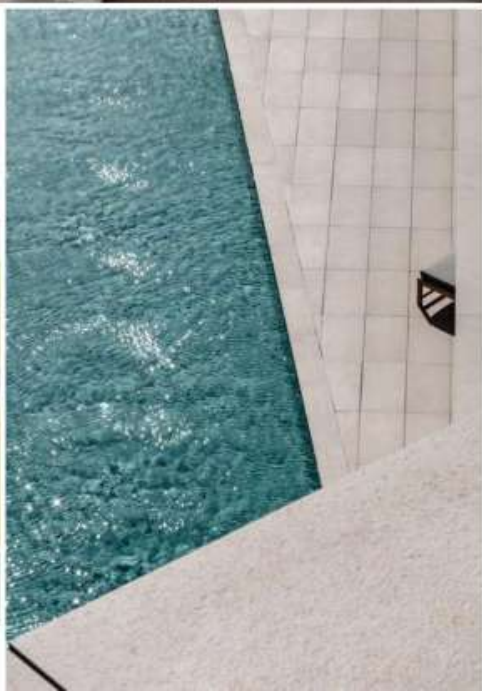

produce, Champagne of course, and the art of 'better living.' Recently, the spa also introduced a soothing set of bespoke immersive programmes, designed to elevate the guest relaxation experience to the next level.

In partnership with acclaimed French brand Biologique Recherche, the spa and wellness centre are inspired by the original purpose of this former Post House built on the orders of the Empress Josephine – to communicate, to link and to connect. Inspiration also draws from the region's most famous produce, Champagne of course, and the art of 'better living.' New for Autumn 2019, the spa will introduce a soothing set of bespoke immersive programmes, designed to elevate the guest relaxation experience to the next level.

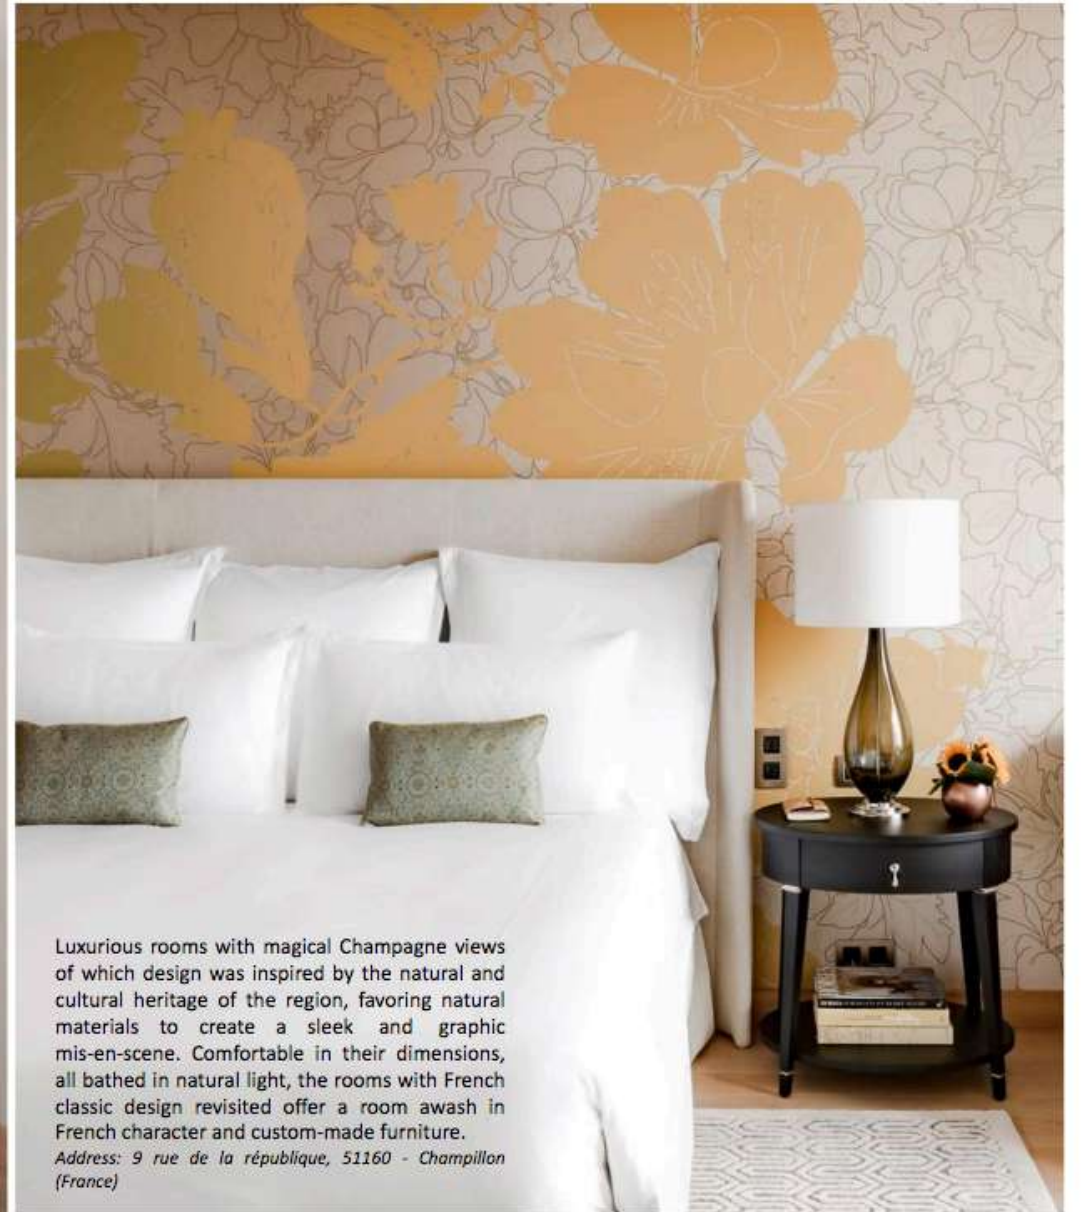

Completing the experience are two temperature-controlled, chaise-longue-lined swimming pools – one indoor, one outdoor – along with dedicated staff who deliver invigorating juice blends and guide guests to multiple relaxation lounges.

Luxurious rooms with magical Champagne views of which design was inspired by the natural and cultural heritage of the region, favoring natural materials to create a sleek and graphic mis-en-scene. Comfortable in their dimensions, all bathed in natural light, the rooms with French classic design revisited offer a room awash in French character and custom-made furniture.
